

U.S. Department of Veterans Affairs

Veterans Health Administration  
VA Northeast Ohio Healthcare System

10701 East Blvd  
Cleveland, OH 44106

Dear Veteran,

Through a recent medical diagnosis, VA has identified you as possibly being impacted by Camp Lejeune water contamination legislation. If you served at Marine Corps Base Camp Lejeune or Marine Corps Air Station (MCAS) New River in North Carolina, you may have had contact with contaminants in the drinking water there. Scientific and medical evidence has shown an association between exposure to these contaminants during military service and development of certain diseases later on. If you have qualifying service (30 cumulative days at Marine Corps Base Camp Lejeune or Marine Corps Air Station (MCAS) New River in North Carolina from August 1953 through December 1987) and a current diagnosis of one of the conditions listed below, you may be able to obtain disability benefits.

These claims often enhance a Veteran's VA compensation and reduce their cost of care. Additionally, if a Veteran were to succumb to a diagnosis that they were service connected for, their spouse might be able to receive both VA health care (until the age of Medicare eligibility) as well as financial benefits for the rest of their life.

- Adult leukemia
- Aplastic anemia and other myelodysplastic syndromes
- Bladder cancer
- Kidney cancer
- Liver cancer
- Multiple myeloma
- Non-Hodgkin's lymphoma
- Parkinson's disease

For more information about the service-connected disability claims process please contact your county's Veterans Service Commission. We've included a list of county Veteran Service Commissions for your reference.

To discuss any questions or concerns you have regarding the information within this letter please contact our VA Northeast Ohio Outreach Coordinators at **216-707-7914** or via email at [EnrollVANEQ@va.gov](mailto:EnrollVANEQ@va.gov).

Thank you for your service!

Sincerely,

Charles J. Nock, MD  
Hematology/Oncology Service
