Time to complete

1. Please provide your name, position title, and contact information. *

LYNNE WRIGHT, RN MH NURSE CASE MANAGER

2. Is this submission an idea for a Promising Practice or existing Promising Practice? *

☒ Idea for a Promising Practice

☐ Existing Promising Practice

3. What is the name of your Promising Practice? *

Building confidence in vaccine

4. What type of Veterans does this practice serve? *

☐ Rural

☐ Urban

☒ Both

5. How does this practice promote vaccine acceptance? *

The goal is to encourage a partnership with their PCP provider to have Veteran discuss with PCP the concerns they have which may be causing them concern/ hesitation in getting vaccinated. A lot of Veterans are hesitant to get Covid Vaccine as they are afraid or feel that not enough is known about the vaccine and long term impact etc. To get them to come to PCP to discuss concerns and get more education about the vaccine and protection. But it can not be a push, it is a process of building trust, confidence and in view of other comorbidities to stress the value of protection so that other diagnoses are not putting them at greater risk of compromise if they should get covid.

6. What are the specific steps you took, or would take, to implement your practice and the timeline/timeframe for each? *

Acknowledge where Veteran is at and support them, but also encourage them to be open to talking with their provider to discuss concerns but also to learn more about value of getting vaccine.

7. What departments are involved in implementing your practice? *

MH and PCP

8. What are the costs associated with your practice? *

zero cost, but there could be a high cost if people do get covid especially if compromised by other medical conditions putting them at high risk

9. What primary metric data is tracked and collected to determine your practice's success? *

?

10. What are the potential risks or barriers of implementing your practice and the proposed mitigations? *

unsure how to answer this.
